

DAK NGUENY

Software Engineering Student — Aspiring Full-Stack / Software Engineer
514-346-0942 | dak.reath@mail.mcgill.ca | Montreal, Quebec | linkedin.com/in/dak-reath

PROFILE

Second-year Software Engineering student at McGill University with hands-on experience building full-stack web applications using React, JavaScript, HTML/CSS, and Tailwind CSS, plus Python from academic coursework. Currently building a React + Node.js/Express + MongoDB student productivity platform. Combines strong technical fundamentals with proven leadership and community-organizing experience through WUSC and a co-founded startup. Seeking a Software Engineering / Full-Stack Development internship to apply and grow these skills in a fast-paced engineering environment.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, HTML, CSS

Backend: Node.js, Express, REST APIs

Tools: Git, GitHub, VS Code, npm

Frontend: React, Tailwind CSS, Vite, JSX, Responsive Design

Databases: MongoDB, MongoDB Atlas

CS Fundamentals: Data Structures, Algorithms, OOP

PROJECTS

Transit Reminder — Student Productivity Web App

2025 – Present

Personal Full-Stack Project · React, Vite, Tailwind CSS, Node.js, Express, MongoDB

- Building a full-stack web app for McGill students to track schedules, reminders, and campus locations, targeting a fall 2026 launch.
- Developed reusable React components (Post, ReminderCard) and a community feed feature with posts, likes, and replies.
- Designed a REST API and MongoDB Atlas data model covering Users, Locations, Schedules, and Reminders; implemented working Express routes for core resources.
- Styled a responsive, dark-themed UI from scratch using Tailwind CSS v4 and CSS custom properties.

LEADERSHIP & EXPERIENCE

WUSC SRP Coordinator

2025 – Present

McGill University — World University Service of Canada

- Coordinate the Student Refugee Program at McGill, supporting incoming refugee students through onboarding, resource navigation, and community integration.
- Collaborate with student committees and university staff to organize outreach events and manage program logistics.

Co-Founder

2025 – Present

Settle MTL — Student Services Startup

- Co-founded a startup concept to help newly arrived students settle into life in Montreal, from concept through early planning stages.
- Led product ideation and go-to-market thinking, applying a builder's mindset that now extends into personal software projects.

Teaching Assistant

2024 – 2025

Somali Bantu Secondary School

- Supported over 500 students in academic and personal development through weekly tutoring sessions.
- Served as deputy in the Mental Health department, promoting student well-being and running mentorship outreach seminars.

EDUCATION

McGill University

2025 – 2029

Bachelor of Science, Software Engineering

Friends School Kamusinga

2020 – 2023

General Studies, High School
